

GLOBAL MARKETS TECHNOLOGY

VALKERIS.COM

WHO ARE WE?

We are a capital markets technology company specializing in delivering innovative solutions to Financial Institutions.

OUR FOCUS

Cutting edge technological solutions geared towards improving operational efficiency, decreasing costs, managing risk and increasing client revenue.

TECHNOLOGY SPECIALISTS

We possess the depth of finance and technology experience required to offer the broadest range of capabilities, and are committed to helping your company achieve any targets set.

Audience >>

Front, Middle and Back Office, Risk, Collateral, Treasury, Settlements, Compliance, KYC/AML, Operations, Infrastructure.

Operating Model >>

We support the data building blocks required to streamline continuous processing of 24hr financial trading activities across different entities, time zones, financial products, roles and regulatory rules.

Quality >>

Robust change management and test strategies ensure solutions are integrated smoothly. We focus on technology risk reporting for full transparency and accountability during all project delivery stages.

APPROACH

The rapid technology evolution is increasing data quantity and quality therefore we approach data and analytics as a means to assist our clients with making the right decisions, whether that's to drive new growth opportunities, operate more efficiently or identify and manage risks.

We are capable of deciphering the underlying data which helps drive your business. With specialist tools we can extract and analyze large volumes of data and simulate complex processes to provide insight, intelligence and data assurance when required.

WHY CHOOSE US?

Team Caliber >>

We hire seasoned consultants of the highest level. They possess an exemplary client delivery track record and true team-player mindsets. Given the stringent nature of our onboarding policy, we fully recognize and reward their commitment to consistently deliver high performance and quality. Our approach fosters stability and loyalty to the benefit of our clients.
